

# RAISED TAX LEVY AT TOWN MEETING THIS AFTERNOON

SLIGHT INCREASE OVER LAST  
YEAR NECESSARY BECAUSE OF  
CERTAIN ITEMS.

## JONAS STULTZ GETS \$1,000

Raise Assessor's Salary to \$1,000 For  
This Year Because of Extra Work  
—Other Business.

The town meeting of the town of  
Dixon, held at the First precinct vot-  
ing place at 2 o'clock this afternoon,  
voted to refund to Jonas Stultz, for-  
mer collector, \$1,000 due on back sal-  
ary and also voted to allow the town  
assessor \$200 more than last year, or  
\$1000 for this year's work, because  
of extra labor connected with the du-  
ties of the office this year.

The meeting was called to order by  
Town Clerk F. D. Palmer. L. W. Mit-  
chell was elected moderator by un-  
animous choice. The auditor's report  
was read. Four years ago the assessor  
was allowed \$900 on account of  
extra work, although during ordinary  
years the amount paid is \$800.

Reports were read on supervisor's  
statement of finances and the super-  
visor's report as treasurer of the high  
way commission.

During the years 1912 and 1913,  
Jonas Stultz, town collector, was only  
paid \$1000, although his collections,  
on the 2 per cent basis, would have en-  
titled him to over \$1500 one year and  
over \$1800 the other year, except  
that the law has always provided a  
salary of \$1500. However, going ac-  
cording to law passed by the legisla-  
ture allowing town boards to cut the  
salary of collector when they wished  
to, Stultz was only paid \$1000 each of  
these years. Since that time the su-  
preme court has handed down a deci-  
sion that the law allowing the cut in  
collector's salary is invalid and there-  
fore it was held by the town meeting  
today that the cut on Stultz' salary  
was illegal and he should be refunded  
the \$1000 lost by him during the  
two years.

The following recommendation for  
tax levy was passed by the town meet-  
ing. This totals up \$1425 more than  
last year, mainly because of an extra  
levy of \$1000 to cover the amount  
paid Jonas Stultz and because of the  
raise of \$200 made in the assessor's  
salary for the year:

Supervisor .....	\$275
Assessor .....	1000
Commissioners of highway .....	1050
Town clerk .....	250
Election expenses .....	600
Town auditor .....	50
Thistle commissioner .....	500
Additional tax .....	1000

The question of whether the high-  
way commissioners had a legal right  
to exceed the expense fund set by the  
town board was settled by the legal  
opinion of Atty. Clyde Smith, who de-  
clared it was his belief that the com-  
missioners had a right to use whatever  
money was necessary in the perfor-  
mance of their duties and that the  
town board could not legally restrict  
them.

## Dobyns Arranges Saloons At First Dry Meeting Here

Says Two Thirds Of Illinois  
Legislature Is Beneath  
Contempt

An audience which nearly filled  
the Family theatre listened to the  
opening address of the "dry" cam-  
paign in Dixon, which was delivered  
by Attorney Flecher Dobyns of Chicago  
Monday evening. The speaker was  
introduced by Judge J. W. Watts of  
this city, and after a short introduc-  
tion, he plunged into an arraignment  
of the liquor traffic as he has seen it  
and regards it.

Mr. Dobyns, who has been federal  
and state prosecutor in Cook county  
at different times, made the claim  
that the saloon is the chief cause of  
crime, with the bar as the clearing  
house of criminals, and he said that  
while the saloons in Dixon may be dif-  
ferent than those in Chicago the pro-  
duct is the same—evil.

Concerning the claim that alcohol  
has a medicinal value Mr. Dobyns  
told his audience that the highest  
medical authorities have agreed that  
alcohol, instead of being a stimulant  
or a tonic, is a distinct poison.

He characterized employers of la-  
bor all over the world as becoming  
more and more opposed to the em-  
ployment of drinking men, and he  
said that the recent action of the czar  
of Russia in prohibiting the sale of  
vodka in the empire, and the action  
of King George of England in stop-  
ping the consumption of intoxicants  
in any of the royal houses, are proof  
that the heads of nations realize the  
evil effects of the use of alcoholic be-  
verages.

of the liquor business on questions  
politic and said that two-thirds of the  
Illinois legislature are beneath con-  
tempt. He pleaded for a dry Dixon,  
and closed by stating that as the  
eighteenth century witnessed the abo-  
lition of piracy and the nineteenth  
century saw the end of slavery, the  
twentieth century will mark the  
death of the greatest curse of all time  
—the saloon.

ing at Rosbrook's hall and the affair  
will continue every night this week,  
with a happy dance the feature of  
each evening's entertainment.

large. Music for the dancing was  
furnished by Slothower's orchestra,  
which organization will also play  
Wednesday and Thursday evenings.

this evening and will close the fair  
Friday and Saturday evenings.

# PURE FOOD MEN IN INSPECTION HERE

INSPECTORS FIND LITTLE TO OB-  
JECT TO IN HOTELS, RESTAU-  
RANTS, CANDY STORES.

Representatives of the state pure  
food commission were visitors in Dixon  
Monday, looking over the hotels,  
restaurants and candy stores to ascer-  
tain if there are any violations of the  
law regarding the preparation and san-  
itary preparation of foods, etc. It is  
understood that a number of minor  
details were criticized by the offi-  
cials, none of them being of any great  
importance, however.

On Thursday the opening chapter  
of a splendid serial story will appear  
in the columns of this paper.

# CENTRAL EXAMS IN COUNTY COMPLETED BY SUPT. MILLER

WORK THIS YEAR HAS BEEN  
WELL ORGANIZED AND RE-  
SULTS ARE VERY GRATIFYING.

## 189 PUPILS IN THIS CLASS

Ages Range From 11 to 18 Years—  
List of Pupils Averaging 90 or  
Above Given Here.

County Superintendent L. W. Mil-  
ler has completed the central examina-  
tions of rural school pupils, eligible  
to graduate from the common schools  
and to enter some public high school  
next fall.

The work of the year has been  
strongly and definitely organized and  
the results are most gratifying to all  
concerned. Three general bi-monthly  
examinations have been given during  
the year, aiming to determine the  
weak, as well as the strong features  
of the pupils' work. This work was  
done in the various school rooms, un-  
der the teachers' directions, and was  
well done.

The central examination covered  
the same ground, searching for delin-  
quencies, and the grades awarded  
were determined by committees of  
teachers—a composite judgment.

Throughout the year averages of  
75% were asked for,—those failing  
in reaching such ratings being per-  
mitted to review and re-take the ex-  
aminations. This plan is still being  
followed as a conclusion, or final test,  
and each day records the voluntary  
wishes of those boys and girls whose  
pride removes the self-imposed "con-  
ditions."

This year's class numbers 189,—  
43 fewer than last year. This number  
includes eighth grade classes from  
Steward, Compton and Lee Center.

The seventh year pupils of St.  
Mary's school at Sublette have been  
under the direction of the county  
superintendent's office during the  
year, the county superintendent per-  
sonally grading their work, and giv-  
ing them the central examination, as  
he was directed to do by his superior  
officer, the state superintendent. Two  
pupils from this school will receive  
the common school diploma this year.

The ages of these pupils is an in-  
teresting item, and is as follows: 1 is  
11; 20 are 12; 48 are 13; 19 are 14;  
40 are 15; 11 are 16; 3 are 17; and  
1 is 18 years of age.

Pupils receiving averages of 90%  
or over, are given below:

Bernard Crofton	Wm. E. Landis
Louise Gerdes	Estella Levan
Helen McWethy	Estella Levan
Myrtle Whitebread	Mildred Knight

# Ordered Stars And Stripes Off American Boat

Mexican General's Action Is  
Counterordered By U. S.

San Diego, Cal., April 6.—General  
Serrano of Carranza's forces en-  
tered Acapulco on the steamer Kor-  
rigan and ordered the captain of the  
steamer Benito Juarez to haul down  
the American flag which recently sup-  
planted the Mexican flag following a  
change of the vessel's registry. Cap-  
tain Hassbrouck of the U. S. gunboat  
Yorktown had the American flag  
again hoisted by the marine guard  
and the Benito is now anchored  
alongside the Yorktown. The auth-

# DIXON WOMAN DIED AT HOSPITAL TODAY

MRS. KATHERINE MILLER DIED  
AFTER LONG ILLNESS—FU-  
NERAL THURSDAY.

treatment of which she was taken to  
the hospital some time ago. Funeral

have been 61 years of age. At the age

six children were born, all surviv-  
ing her. They are: Frank, Anos, Wal-  
ter and Charles, at home; Mrs. Chas.  
Warner of Grand Detour and Mrs.

# STATE INSPECTOR INVESTIGATES THE LOCAL MILK SUPPLY

FINDS CONDITIONS FAIRLY SAT-  
ISFACTORY, ALTHOUGH SOME  
DEALERS OFFEND

## OFFENDERS MUST BE PUNISHED

Laxity in Straining Greatest Fault  
Here—Bottles Taken From Wag-  
ons and Dairies Visited.

Dixon, Ill., April 6, 1915.  
Mr. J. D. Van Bibber, Comm. Public  
Health and Safety—  
Dear Sir:

On your request, the State Food  
Commissioner W. Scott Matthews,  
detailed me to come here in company  
with Inspector J. Abcon. We have  
made a thorough inspection of your  
milk supply, as to the quality and  
the sanitary conditions, and proper  
methods during the production of  
the milk.

Collected samples of the milk and  
cream—bottled or in bulk from your  
wagons on the street, when being de-  
livered to the customers.

These samples were sealed with  
our state seals and shipped direct to  
where an analytic test will be made  
as to the quality—(if low in butter  
fat contents—or being skimmed)—  
watered or adulterated with preser-  
vatives, or not being properly strained  
and cleaned.

The wagons, cans, bottles and other  
utensils were inspected as to their  
cleanliness. We found them all in a  
fairly good condition.

You have six milk-men in Dixon,  
and all good and clean looking. Af-  
ter the samples were taken we visited  
the places where your milk is pro-  
duced and inspected the methods  
and equipments used in the produc-  
tion—such as the health of the cows  
—the sanitary conditions in and  
around the cow barn, the drainage,  
water supply, the sanitary conditions  
of the milk house where the milk is  
collected, strained and bottled.

Where room for improvements  
were found in the methods or equip-  
ments, we made recommendations,  
which must be complied with.

Yesterday when I took samples  
from the wagons I found in a few in-  
stances that the milk had not been  
strained properly and quite a per-  
centage of dirt sediment was found  
in the bottom of the bottles. Atten-  
tion was called to the fact.

Reinspecting the bottles from the  
same supply today I found a very sat-  
isfactory improvement.

The general complexion of your  
milk supply in Dixon looks very fa-  
vorable, although there is always  
room for improvements, and I think  
it is very fortunate for the town to  
have a commissioner who has on his  
mind the health of the community.

marine, off Spain, says Paris.

## SUBMARINE IN NET.

Dunkirk dispatches say a German  
submarine has been securely entan-  
gled in a net designed for that purpose  
and placed off Dover. French auth-  
orities expect the capture of the  
submersible when it comes to the  
surface.

## HOPE FOR SETTLEMENT.

Military operations are being push-  
ed in Italy. Rome dispatches say  
that negotiations are being continued  
with Austria and that there is still  
hope for a settlement of the conten-  
tions between the two countries.

## BATTLE IS IN DOUBT.

Reports of decisive Russian vic-  
tories in the Carpathians are doubted  
in Berlin where it is said the result  
of the great mountain battle is still  
in doubt.

## FIGHT IN AFRICA.

An official report from Belgian  
Congo, Africa, says invading Ger-  
mans were defeated and pursued in-

## INCREASE U. S. STAFF.

Because of the great number of  
claims against the British govern-  
ment, arising from the detention of  
American cargoes, the staff of the  
American Consul General at London  
has been increased from nine to  
twenty-six men.

## FRENCH CLAIM ADVANCES.

French advanced in two places.

## DRYS WIN MANY BIG VICTORIES

elections in thirteen of sixteen coun-  
ties which voted on local option. Kelana-  
zoo, Calhoun, Mason, LaPeer, Rusco-  
la, Oakland and three other counties  
joined the "dry" column. Alger and  
Chippewa counties are in doubt. Late  
returns increase the large majority  
for the republican state ticket.

moters of the Willard-Johnson prize  
fight remained at the race track un-  
til long after midnight counting the  
gate receipts which it is believed ex-  
ceeded \$125,000. Mystery of Jack's  
disappearance is explained by the  
fact that he was present to see the  
money counted. Although he had  
no financial interest in the receipts  
he stayed at the track to keep away  
from visitors.

### SEEING AMERICA FIRST—THE CATHEDRAL OF ST. JOHN

Looking at cathedrals is the favorite in-and-out-door sports of Americans in Europe. In most ways we can successfully compete with the older nations in sights and in sounds, but in cathedrals and Europe is 7,000 laps ahead.

Nothing in Europe is so wonderful as her cathedrals. When the American plants himself before one of these east soaring poems in sculptured stone with its lace-work spires, its delicate flying buttresses and its general directory of stone saints standing at attention all over the great facade he heaves a sigh of despair and says: "Alas, we cannot do this in America. Skyscrapers are our one best bet."

Thousands of Americans have gone to Europe merely to wander over, under and through the great cathedrals of a by-gone day; but they cannot do it this year. Many of the cathedrals are dishabille owing to the war and most of the rest are being used for hospitals. Besides ocean traffic is too exciting this year. But those who cannot live through the winter without drawing a few whiffs of inspiration from a church big enough to stifle a thunderstorm need not despair. It will surprise many of them to know that the third largest church in the world is in process of erection in New York City.

This is a great novelty. Hundreds of cathedrals are in process of falling down, but few are going up. Some countries are too poor to build them and some have forgotten how. In New York however the Episcopalians have decided to prove that Americans can build churches as large as railway stations if necessary and they are working on the cathedral of St. John the Divine which already looms up above the city near 112th St. like a mesa in an Arizona desert.

They have been working for twenty years on this church but only a little of it has been finished. The great nave has not been begun but services are being held in the little space where the transepts cross the choir and as three or four thousand people can crowd into this room they get along very well. When the entire church is finished it will be larger than St. Paul's in London and more beautiful than anything man has done with a hammer and chisel for the past 400 years.

The tourist who visits St. John's will find many splendid sights within its choir and chapels and he will also see how a great cathedral looks when the workmen have knocked off for dinner, leaving it half finished. This is a much more interesting sight than viewing a cathedral which started falling down 500 years ago and has about finished the job. Yet more Americans have flocked to Melrose Abbey than have stepped into St. John's to look at the great stone columns which are the largest hewn since the Egyptians went out of business.

## Dementtown Doings

Did you do your duty—that of voting?

Possibly the reason truth is getting crushed to earth so often is because it is always getting in the way of some people.

Incidentally one might put in a little spare time breaking up that garden.

"Why pay rent when you can be in debt to us?" is the frank way in which a real estate firm in another city tells it.

What availeth a new hat when the wearer thereof was forced to sit in the back pew?

The Aurora police released its last murder suspect Saturday. They had a good time while the supply lasted.

Longfellow could take a piece of paper and write a poem on it and make it worth \$65,000—that's genius.

There are some men who could write a few words on a piece of paper and make it worth \$8,000,000—that is capital. The United States can take an ounce and a quarter of gold, and make it worth \$20—that's money. A mechanic can take material worth \$5 and make watch springs worth \$1000—that's skill. There is a man in Chicago who can take a piece of canvas, paint a picture on it worth \$1,000—that's art. A Greek can take an article worth 75 cents, sell it for one dollar—that's business. A woman can purchase a hat worth 75 cents but prefers one worth \$27—that's foolishness. A ditch digger handles several tons of earth a day for \$1.50—that's labor. The author of this can write a check for \$9,000,000, but nobody would cash it—that's tough.

## JESS WILLARD IS NEW FISTIC KING

Age and High Living Jethrone Jack Johnson.

### CROWN BACK TO WHITE RACE

Sleep Producing Wallop Comes in the 26th Round—Winner Fought Careful Battle—Received Wallops of Ret-rogaded Black Without Flinching—Victory Is Popular One.

Havana, April 6.—Jess Willard, the gigantic ex-cowboy, was crowned heavy weight champion pugilist of the world at the race track here. He battered his way to the throne through twenty-five rounds of bruising, smashing attacks and retreats and won his niche in the fistic hall of fame in the twenty-sixth round by driving his huge right fist into Jack Johnson's midsection and following it with two terrific blows from the same hand to the negro's jaw. Johnson went to the floor with a thud, an inert mass of bronzed flesh while Referee Jack Welch of San Francisco went through the formality of counting out the ten seconds before proclaiming the white man the winner.

Pandemonium broke loose as the negro crashed down. The shrill cries from many women's throats rose high above the frenzied shouts of deeper toned voices. Men laughed hysterically and threw their hats on high. The Cubans, who made up a large proportion of the vast attendance, howled their pleasure at the dramatic climax, blacks and whites alike. They fairly revelled in the carnage and their excitement was revealed in shining eyes and excited outcries.

### Willard Very Cool.

Willard himself, sore in body but elated in spirit, was probably the most collected person in the enclosure. He stood still, gazing down on his fallen adversary, as though unable to realize that the moment he had fondly dreamed of many weary months was actually at hand. There was caution in his glance, too, for though it was apparent to every man and woman in the enclosure that Johnson was done for, Willard never shifted his eyes until Referee Welch tapped him on the back and sent him to his corner. Then, and only then, did the big fellow allow a faint smile to light up his swollen and bleeding face.

### Willard Battles After a Plan.

The new champion is not emotional. If he were he would not probably be champion tonight. He is a one idea man and his determination was to battle Johnson after a plan carefully thought out. He never deviated from that purpose. All of Johnson's taunts, all of Johnson's tricks, all of Johnson's superior knowledge of boxing availed but little against the indomitable steadfastness of purpose of the cowboy. He waged a waiting battle and for once the negro must recall his oft repeated boast that he could make any opponent in the world lead at him. Willard would not lead. Stung by the thought that the strength was fast ebbing from his overfed and under trained body Johnson fought as he never fought before, carrying the attack into the enemy's territory. Willard replied with counters and allowed the black to tire himself out. Then when the sledge hammer blows began to lack weight Willard's pulses quickened perceptibly and he started on the last lap of the campaign to which he had clung so tenaciously.

### Not a Great Battle.

It cannot be classed as one of the great battles for the heavy weight title. It was too methodical for that. Some of the rounds saw scarce any fighting at all. But the air was so surcharged with excitement and there was such a dramatic tinge to the grim determination of the towering Willard and the sudden end which began to forecast itself a few rounds earlier that the crowd forgot all about the lagging periods.

Johnson beat himself, said many, but it must not be forgotten that the fail of the champion taxed his skill to the utmost before his strength began to ebb. His blows did not carry the old steam, to be sure, and his judgment of distance was bad at times, but his brain was alert as ever and he had all his old knowledge of every angle of the game of fisticuffs. That some of his blows did not topple the young giant amazed the ringsiders as they saw them land flush on Willard's jaw. This also had a dispiriting effect on Johnson himself. But although Willard's knees sagged a score of times and he seemed about to go down under a rain of blows he always managed to keep on his feet. This was the triumph of youth and right living.

## DANDRUFF SOON RUINS THE HAIR

Makes It Lifeless, Dull, Dry, Brittle and Thin.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will tarve your hair and ruin it if you don't. It doesn't do much good to try to wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

## SHOULD LET HIM TALK.

An army lieutenant has been called onto the court martial carpet because in a speech delivered before the Cattlemen's association at El Paso, he arraigned the politicians in congress for placing army posts in political, instead of strategic positions, says the Aurora Beacon-News.

If the officer's remarks were directed at, or reflected upon, his superior officers, and the president of the United States and the secretary of war come within that scope, then he was very culpable and merits punishment. Discipline must be maintained in the army or it becomes a worthless machine. Insubordination and criticism, right or wrong, of a superior, is a cardinal fault in a soldier, all the more aggravated if that soldier himself wears shoulder straps.

But if it happens that this criticism was of congress collectively, or even of congressmen individually, then he was within his rights as a citizen. Any man, soldier or civilian, is granted the constitutional liberty of free speech when it does not conflict with prescribed laws qualifying such right.

In this case there could have been nothing subversive of discipline, and certainly the United States does not recognize the crime of lese majesty, when its national lawmakers are the aggrieved parties.

The fact that certain congressmen have been active in having army posts located at certain points because of the benefit to those favored sections, totally ignoring the strategic value of the location, is well known. There are abandoned army posts for whose existence there was never any excuse except that the congressmen from that district had a pull. If that condition is to be remedied, and business methods instituted in our army and navy bureaus, then attention must be called to these things and who can do so more intelligently than those whose business it is to know about them?

The people do not want a rule that will muzzle an army officer when he would tell the things the people should know.

## 1,000,000 WOMEN.

It is said that a million women have answered the British government's call for volunteers to do men's work if their services are needed. The government's purpose, of course, was to prepare women for a possible necessity of the future, so that if the demands of war too greatly deplete the male population the industrial activities of the United Kingdom will not be crippled.

This is a new idea of women's work in war. Hitherto the women have stayed at home and grieved for husbands, brothers, sons and fathers. They have been nurses or assisted in making hospital supplies. But they have never been called upon by their governments to do men's work in order that more men might be available for the battlefield.

It is distinctly a twentieth century interpretation of woman's usefulness. In the past it has been deemed improper, or even impossible, for women to do the ordinary work of men. Even now it is not considered desirable for women to enter many occupations. The question, however, is one of desirability, wholly. There is no longer any doubt as to woman's ability.

The women who have volunteered are to be called upon only in case of absolute necessity. That such a necessity can come in Great Britain or in any other country now at war is unthinkable. Only a general slaughter such as has never been contemplated even by the most rabid militaristic zealot could bring about conditions such as forecasted in the British call for women volunteers.—Cleveland Plain Dealer.

## PETER PAYING PAUL.

Anomalies are not unusual in the street, but even Stock Exchange traders have been found to marvel over the circumstance that the Andrew Carnegie, who built the Peace Palace at The Hague, should have been the backer of Schwab's Bethlehem Steel Corporation, which is furnishing more implements for war than any other company in the United States.—N. Y. Tribune.

## GIRLS BEGINNING WELL.

High school girls in Spokane, Wash., have resolved to wear five-dollar graduation dresses this year, if they have to make them up themselves to keep to the limit. For flowers they will wear but one sprig of lilies of the valley with green leaves. The combination of this sweet simplicity and fresh girlishness ought to be very attractive, and no doubt the lesson in reducing the high cost of living, given in such a charming way, will have its due effect.—Baltimore American.

## FREEPORT ATTEMPTS TO STRAIGHTEN UP.

Freeport has been having a bloody time over election and the mud has been flying rather thick and fast. A certain gang has tried to rule Freeport for years, and pretty effectively, too, and the right-minded citizens of the town are trying today to vote the "ring" out of office and cut the grafting short.

## THINGS DUE TO WARM UP.

Now that the township election is over you will see renewed activities among the candidates for city office and things politically will begin to warm up. We hope they do not boil over. The campaign to date has been very clean and quiet. Let it remain so.

A Chicago woman was attacked by an armed holdup man the other day. She hauled off and kicked him a good wallop in the stomach, and saved her purse. There is some advantage in these new wide skirts—a year ago she'd have been helpless.

Mrs. Mary Brand is 98 years old. She lives in Ohio. She says the reason she is in such good health at her exceptionally advanced age is that she eats just what she wants. Good for you, Mary. So do we.

Jack Johnson knows what it is to be struck by a Kansas cyclone.

## THE WAILING PLACE.

In this sad world, with griefs begirt, the more we howl, the more we're hurt. Misfortunes seem to keep the trail of those who raise the loudest wail.

The business men, in pomp arrayed, who own big palaces of trade, and have their minions by the score, don't very often raise a roar. If things go wrong they do not sigh, or show the world a streaming eye. They do not advertise bad luck—that will not draw the patron's buck. They advertise the gorgeous fact that they have red hot bargains stacked, all through the store, all sorts and styles; and when you go you meet with smiles. The merchant in yon tin horn store, who's been there thirty years or more, who has a dribbling stream of trade from those who'll stand for things decayed, is always at the wailing place, has always tears up on his face. The man who aims to get ahead, and not be numbered with the dead, must sound the brave and payful note, and keep a firm grip on his goat.

**CURRENT COMMENT**

Viriden Record:—Farmers state that the prospect for a bumper crop of wheat this year is the best ever. While the winter was pretty severe, the wheat crop was not the least bit injured. Several have examined the roots of the wheat and found them to be in excellent condition. The "fly" is also absent. The farmers in this vicinity have been "playing" in hard luck for the past three years, and we trust their "innings" will come this summer for it is long past due.

Kankakee Gazette: After reading about the ravages of insects which destroy grain and fruit we are not sure but it would be a profitable investment for farmers, suburban dwellers and small town inhabitants to cultivate their feathered friends by putting up bird houses and discouraging the youth with the shot gun who indiscriminately kills everything that flies. Not only have we been killing our bird friends, but in cultivating our land we have deprived the birds of secure nesting places.

Peoria Star: Testing seed corn is but one of the many little things being done by the progressive farmer to insure better crops. With an entire crop of corn depending largely on the seed, it behooves every farmer to make sure that he is not throwing away his time and soil by planting unproductive seed. The matter of testing the seed is so simple, and there are so many different ways in which the test can be made, that there is no excuse for the lazy farmer, to take chances on his corn crop.

Alton Telegraph: Sen. Lawrence Y. Sherman is earning a national reputation as a speaker—widening out the reputation he had in Illinois. The caustic comments he makes have a sting, but to the man who does not feel personally interested or affected by them, they appear humorous.

## Capital Punishment.

Rochester Item: When Governor Dunne characterizes capital punishment as abhorrent and brutal, he voices the sentiments that has been growing ever since the dawn of civilization. No end sought can justify the deliberate and ceremonious taking of human life. The depression an execution works in a community is detrimental alike to mortality and refinement. Far from being a deterrent of crime it nourishes the criminal instinct, and it must leave an ugly scar upon the conscience of those who are called to administer it.

## It Didn't Work.

Des Moines Tribune: The health commissioner of Brooklyn, N. Y., issued an order limiting the number of passengers standing in a street car to one-half the number seated.

This order was made to apply to one line only.

On that line great assemblages of enraged people congregated at corners where they were passed by the cars loaded according to the order and adopted verbal resolutions of condemnation of the officers which were so vivid and vigorous as to be irreducible to written form.

As a result a half dozen additional cars put in service on the line, but that did not relieve the situation to an appreciable extent, and the theory that cars should not be packed suffered a decided relapse.

There is hardly a living man, woman or child who doesn't want to board the first car and resents any interference with his efforts to do it. He may rail against the service and insist on regulations providing for a seat for everybody, but he covets a strap if he cannot get anything better on the first car that comes along.

## FOOD QUESTION BECOMES ONE OF SERIOUSNESS IN EUROPE

### IN SPAIN.

Madrid, Spain, Mch. 16.—Correspondence of the Associated Press.—The increasing cost of food supplies in Spain, which has resulted in a number of food riots, as reported by cable is charged solely to speculation. In 1914 the crops were better than in previous years, with an excess of 100,000 tons of wheat over the 1913 crop but notwithstanding this prices have mounted so high that the government has been forced to take measures to avoid monopolies, and has intimated its intention of fixing the maximum prices.

Wheat, cereals in general, potatoes, beans and other products have been exported in great quantities to England and France. Numerous French agents have bought beef and vegetables at prices above normal and Switzerland alone last month bought for its army \$1,000,000 worth of food products from Spain. All this has caused a natural crisis which has been felt severely in all of the provinces.

The high prices added to the fact that work in the factories is paralyzed in almost the whole of Spain, is rendering the workman's life impossible. Public works on the government's account have been begun in some provinces, but nevertheless it has been impossible to eliminate the existing bad state of affairs. The trouble has reached its greatest intensity in the south. Early this month disorders broke out in Murcia where more than 4000 people walked the streets demanding bread and work. In Cadiz, Laragoza, Lucena, Badajoz, Logrono and Segovia similar disturbances took place. In Albacete the crowds protested to the civil government and the governor ordered them to be fired upon. One person was killed and several wounded.

### IN HUNGARY.

Budapest, Mch. 16.—Correspondence of the Associated Press.—The food question has at last been to some extent solved in this city. The authorities have a considerable supply of flour and grain on hand and some official statements say that the stock will last until the next harvest, although it is not generally believed. The distribution of flour is going on under rather rigid restrictions.

The grain was obtained just in time to avoid serious trouble with the populace which had become very ugly over the prospects of famine. Great preparations are being made for making the next harvest as ample as possible. All agricultural laborers now with the army are to have fourteen

days' leave for the spring planting, and are required to spend this time in the same locality where they worked last year. The government has also announced that groups of soldiers from the reserves, twenty men in a group, may be "rented" for agricultural purposes on application from approved landowners.

Probably an attempt will be made to employ prisoners of war for this work in Hungary, as the camps where the prisoners are interned are hotbeds of contagious diseases and the prisoners would spread them all over the country.

### IN GERMANY.

Hamburg, Mch. 16.—Correspondence of the Associated Press.—Some idea of how prisoners of war are cared for in the concentration camps of Germany may be gained from a report just made public by a visitor to Parchim, where many hundreds of men are confined.

The captured soldiers rise at 6 and 7 and are served with a quart of tea or coffee, together with the same ration of bread that German citizens are allowed under the bread card system. In the canteen are all manner of delicatessen on sale.

At 8 o'clock comes sick list inspection, and then the men go to work until 11, when they are served with a meal consisting of thick soup with legumes, cabbage and meat, a sort of goulash. The meals are prepared by the French and the Belgians under German supervision.

They work in the afternoon until 6:30, when they are given a quart of gruel with potatoes or vegetables. Once a week fish is served.

The following is the noonday meal for a week:

Monday—Pea soup with meat and potatoes.

Tuesday—Pig knuckles with carrots and potatoes.

Wednesday—Barley soup, meat and potatoes.

Thursday—Fish with onion gravy and potatoes.

Friday—Bean soup with meat and potatoes.

Saturday—Mutton, cabbage and potatoes.

Sunday—Rice soup with beef and potatoes.

The visitor sampled all the foods given to the prisoners and announced it was tasty, and apparently fully as good as that served the German soldiers. The prisoners, he said, appeared healthy and well nourished as a result of the simple but wholesome fare.

## AN ADVERTISEMENT FOR A BETTER AND A BIGGER DIXON

Can Dixon be made better, bigger, more prosperous and beautiful, more desirable for residences and business, safer for rearing children, and with less of misery and crime? That is the great question for our voters to decide on April 20th next.

We have in the past attempted to "regulate" the greatest obstacle to our attainment of these desires. We have thought we could have "well-regulated saloons;" we have at times boasted that we had them. We have tried them with the lid on and the lid off, with the screens up and the screens down. Our city fathers have tried faithfully every device prescribed by the wise one for such regulation. Never has there been a more heroic attempt to enforce the laws on the subject. But the effort has failed. We do not blame the city administration for the failure. The task was impossible. There can be no such thing as a "well-regulated saloon."

One year ago our people by a large majority voted to "let well enough alone," and found that they had made a mistake in the first letter in the word "well." The saloons took the vote as a license to do as they pleased. At that election we sowed the wind and we have reaped the whirlwind. We have seen an aftermath of drunkenness, crime, debauchery of youth, and even deaths from drink, as never before in our history.

It has been our mistaken policy to keep these things quiet, and assure the people that we had model saloons. We have put a patch over the cancer and tried to make ourselves and others believe the sore did not exist. But whom the gods would destroy they first make mad, and the Dixon saloon has spelled its doom at this election or the next, in the licentiousness of the last year.

The Dixon Law and Order League is going, in the interest of civility, to bare a small portion only of these woes of our city. Not that we enjoy the task, but because, like the surgeon's knife, severe remedies are necessary at times. We are going to print from day to day, in space hired for pay from the city papers, some of the conditions as they actually exist here, and which the people have a right to know.

On any other proposition for Dixon's betterment, we could print freely. But as we have no desire to embarrass our friends, the papers, in their neutrality, we gladly pay for space, and have it marked "Adv." But watch this space for real news every day.

Dixon Law & Order League.

## MUST RE-TAKE DIXON MOVIES-SHOW SOON

SEVERAL SCENES IN PICTURES TAKEN A FEW DAYS AGO WERE UNSUCCESSFUL

The motion pictures taken of Dixon by the R. S. Hopper Moving Picture Co., of Freeport a few weeks ago were not altogether a success and some of the scenes were spoiled, announced Mr. Green, representative of the company, who was here today, and as the company wants to have the picture of Dixon right up to the standard in every particular, the picture taking squad will return to this city within a few days and re-film the scenes which were not clear. The pictures will be shown within a very short time.

## U. S. PROTESTS DO NOT BLUSTER

Notes to Germany and Great Britain Made Public.

ASKS \$228,059.54 FOR FRYE

Protest to England is Lawyer's Argument. While Stating Position of Washington With Vigor—Reparation for Losses to U. S. Citizens Appears Sole Intent of Document.

Washington, April 6.—While protesting vigorously against certain features of the allies' blockade of Germany the United States government is not yet indulging in any threats or otherwise attempting to coerce Great Britain into conducting her war operations in conformity with what this government considers to be the law of nations. This was made clear here with the issuance of the note of the United States to Great Britain with respect to the British orders in council making effective the plan of the allies to cut off all trade with Germany.

The American note is essentially a lawyer's argument, framed with a view of upholding what this government conceives to be the law, rather than in the expectation of achieving any substantial modification of the British policy. Its tone is more solemn than severe.

### U. S. Expects Reparation.

Notice is served that the United States will look to Great Britain to "make reparation for every act which under the rules of international law constitutes a violation of neutral rights." This announcement that the United States will demand compensation for every loss growing out of specific acts of British interference with American trade in violation of what are considered to be American rights are the sole reference contained in the note to the intentions of the United States in the premises. Settlement is thus put upon a basis of dollars and cents and it is generally conceded that for the present this represents the full measure of what the United States is in a position to do.

**Demands \$228,059.54 for Frye.**  
Washington, April 6.—The United States government has asked of Germany compensation to the amount of \$228,059.54 in the case of the American ship Wm. P. Frye, sunk Jan. 28 by the German commerce destroyer Prinz Eitel Friedrich. The state department made public the text of the note in which the American claim is presented to the German government.

Ambassador Gerard reported to Washington that the foreign office at Berlin had promised him an early reply to the note he presented and stated that the legal department of the European office is already at work on the case. The foreign minister referred to the fact that exchanges have already begun between Berlin and the German embassy at Washington.

### Wilson's Man Off to Mexico.

Vera Cruz, April 6.—Duval West, President Wilson's personal representative in Mexico, left for Mexico City, accompanied by Arnold Shanklin, the American consul general. They planned to go by special train to Ometusco. Beyond that railway communication is cut.

### Germans Expel Pinchot.

The Hague, April 6.—(Via London.)—Gifford Pinchot, ex-chief forester of the United States, who, it is understood, has been acting as special agent for the state department at Washington in the European war zone, has been expelled from Belgium by the German authorities.

## SEVENTEEN MINERS LOST IN EXPLOSION

Seven Bodies Are Taken from Greenville, Ill., Shaft.

Greenville, Ill., April 6.—Seven men are known to have perished in an explosion in the mine of the Shoal Creek Coal company, near here. Ten are missing. The bodies of the seven men have been recovered.

The explosion occurred 260 feet underground and a quarter of a mile from the main shaft. Four hundred men had just entered the workings, but all except the seventeen escaped.

The explosion is believed to have been caused by black damp being set off by a miner's lamp. Only a small part of the mine was damaged by the explosion, and to this is attributed the small loss of life.

### Dutch Warn U. S. on Flag.

Washington, April 6.—The Netherlands government has notified the United States that any foreign ship misusing the Dutch flag or using other means to make pretense of possessing Dutch nationality will not be allowed to depart from or pass through waters under the jurisdiction of the Netherlands.

## ELEVEN FOREIGNERS KILLED BY MEXICANS

Arthur B. Johnson Gives Long List of Outrages.

San Antonio, Tex., April 6.—Eleven foreigners have been assassinated recently in the City of Mexico, according to Arthur Bullard Johnson, an attorney representing jointly the 2,600 Americans of the city and the international committee of the capital district, the latter composed of seventeen different nationalities aggregating 10,000 persons, who arrived here.

The persons assassinated, according to the statement of the international committee, counseled by the diplomatic corps, says Mr. Johnson, were an American, a Swede, three Ottomans and six Spaniards.

A partial list of other alleged recent outrages contained in the statement follows:

"One French woman was attacked twenty-eight times. One American was shot while defending his wife from a similar fate.

"Five American, one English, two Swedish, and twenty-eight Spanish business houses were sacked.

"Two Americans, a woman and her husband, faced a firing squad of looters, but later were released.

"Three Spaniards were condemned to death, two were abducted, and have disappeared. One had his business establishment burned and eleven were brutally beaten while ten lost a total of 101,850 pesos cash."

## SOME DON'TS For Stomach and Liver Sufferers

Don't take medicine for your Stomach ailments morning, noon and night, as usually such medicines only give temporary relief and simply digest the food that happens to be in the Stomach.

Don't permit a surgical operation. There is always serious danger in operations and in many cases of Stomach, Liver and Intestinal Ailments the knife can be avoided if the right remedy is taken in time.

Don't go around with a foul smelling breath caused by a disordered Stomach and Liver, to the discomfort of those you come in contact with.

If you are a Stomach sufferer, don't think you can not be helped; probably worse cases than yours have been permanently restored by Mayr's Wonderful Remedy.

Most Stomach ailments are mainly caused by a catarrhal condition. Mayr's Wonderful Remedy not only removes the catarrhal mucus, but allays the chronic inflammation and assists in rendering the entire alimentary and intestinal tract antiseptic, and this is the secret of its marvelous success.

Don't suffer constant pain and agony and allow your stomach ailments to physically undermine your health. No matter how severe your case may be or how long you have suffered—one dose of Mayr's Wonderful Remedy should convince you that you can be restored to health again.

Mayr's Wonderful Remedy has been taken and is highly recommended by Members of Congress, Justices of the Supreme Court, Educators, Lawyers, Merchants, Bankers, Doctors, Druggists, Nurses, Manufacturers, Priests, Ministers, Farmers, and people in all walks of life.

## CHILDREN HATE OIL, CALOMEL AND PILLS

"CALIFORNIA SYRUP OF FIGS" IS BEST FOR TENDER STOMACH, LIVER AND BOWELS.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs" which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

## Pictureplay Department Studio Notes

The Gentleman Burglar.

Jim Draper, society leader, reads in the paper of the robberies perpetrated by "Broadway Jim," a Raffles. He jokingly tells his father that he longs to become a Sherlock Holmes. Irma Horne, a clever girl detective, is on "Broadway Jim's" trail. She encounters Jim Draper, and thinks she has discovered the crook. Irma feigns a sprained ankle, Draper takes her home in his car, and Irma is surprised to learn that her supposed crook is a wealthy society man.

"Broadway Jim" sees a picture of Draper in society columns of a newspaper, and is startled by the striking resemblance to himself. He reads that Draper is to attend the Trevaine reception where the famous Armand heirlooms are to be exhibited. Irma Horne and John Dixon, detectives, pose as butler and maid, in order to guard the priceless jewels.

"Broadway Jim" impersonates Draper after Draper and his chauffeur are overpowered, and the crook is welcomed at the reception as Draper. The victim recovers consciousness in a hospital and discovers his invitation to the reception is missing.

Irma believes "Broadway Jim" to be Draper. "Broadway" extinguishes the lights and makes an attempt to steal the heirlooms but is prevented by Irma and Dixon. He is arrested, and the guests are appalled at what they believe to be Draper's kleptomania, but are utterly dumfounded when the real Draper puts in his appearance.

Irma, exhausted, is again taken home by Draper, this time with something other than suspicion in her heart. A strong story in two parts, written by E. Lynn Summers and featured by William Stowell and others.

Charles A. Gardner, once known the country over as "sweet-singing Karl," plays "extra" parts at the Selig motion picture studio at Chicago.

Grace Darling, who has visited the Canal Zone and the Panama-Pacific exposition for the Hearst-Selig News Pictorial, is a versatile newspaper woman.

John Charles, leading man for the Selig Chicago stock company, is a charter member of the New York "Screen" club, and has played nearly four hundred different parts in theatrical stock companies.

The special company of Selig players headed by Kathryn Williams recently returned from Panama where they filmed special scenes for the forthcoming Selig Spectacular Special, "The Ne'er-Do-Well," a film adaptation from Rex Beach's famous novel.

The Selig Movie Special is going to transport you, and your family to the Panama-Pacific exposition and return cheaper than you can stay at home. For \$128 the round trip, which includes hotel accommodations, sleeper reservations, etc., you can visit San Francisco, Los Angeles, Santa Barbara, the San Diego fair. Date for the trip which starts from Chicago, is Thursday, July 8. Further details furnished if you address Selig Polyscope Co., executive offices, Chicago, Ill.

## READ "PEG O' MY HEART"

PEG AND MICHAEL

It will appear serially in this paper.

The play ran 604 consecutive nights, or about two years, at a New York theater, scoring one of the greatest hits of the past decade.

The story, like the play, was written by J. Hartley Manners. It is full of heart interest. It is witty and clever. Every line of it will entertain you.

A romping, madcap, bewitching Irish girl is turned over to the care of aristocratic English relatives.

They dislike her, but Peg holds her own with jaunty pride, and in the end, by her generosity and big heartedness, wins them over, and, what is more, wins her fortune, and, what is still more, wins a very gallant lover.

## Dramatic Notes

### FAMILY THEATRE.

The Family theatre will show the wonderful seven-reel picture of Annette Kellerman in "Neptune's Daughter" on Wednesday, April 7, at both matinee and night.

"Neptune's Daughter" was produced at a cost of \$50,000 and was three months in preparation. Chicago's most fashionable theatre, The Fine Arts theatre, was filled at every performance with entranced audiences whose interest and applause indorsed the general opinion that this is the greatest photoplay ever produced.

### DIXON OPERA HOUSE.

The merry musical farce furor, "The Million Dollar Doll," under the direction of Harvey D. Orr, appears here for one performance only, next Friday evening at the Opera House.

This is one of the few musical comedies with a real plot, from the book of Harold DeWitt, with music written by Louis Westlyn, New York's most popular musical comedy writer. The company includes thirty-five people, carrying a special carload of scenery and electrical effects. This is the original cast and production, including the greatest singing and dancing chorus in America. Some of the big song hits are "Society," "Night Time," "The Dancing Craze," "I Cross It Isn't Apt to Happen Again," "When a Fellow Needs a Friend," and eighteen others.

The seat sale for this big production opened today at Campbell's Drug Store.

### PRINCESS THEATRE.

Tonight the Princess Theater has on its bill a two reel feature entitled "The Phantom on the Hearth," a Kay-Bee drama, with Edward Brennan and Violet McMillen in the leading roles, a story wherein the hereditary lure of the circus is dramatically presented by one of the best moving picture companies known. The other pictures are a Keystone comedy entitled "Hogan Out West." The last reel is a Reliance drama entitled "The Game of Thrills" with Alfred Fisher and Gladys Du Pall in the leading roles, a story wherein a young New Yorker finds his romance upset.

### REAL ESTATE TRANSFER.

### Edith Johnson

(A Popular Selig Star.)

One of the most popular members of the Selig Polyscope company at Los Angeles is Miss Edith Johnson, who has advanced herself by her talent in her work until she plays the leads in many important Selig picture plays. Miss Johnson is young and her friends expect she will get far in her profession with the magnificent start she has made. During the last few months Miss Johnson has made a reputation for herself in such Selig picture plays as "The Lure O' the Windigo," "The Flower of Faith," while she will be seen in a number of pictures to be released in the near future. Miss Johnson is a most beautiful young woman. She is modest, unassuming and a hard worker. She was first employed in the offices of the Rochester Evening Post, and then was employed by the Eastman Kodak company, and later joined the Selig Polyscope company.

## HIGGINS HELPS IOWA SAVE

Illinois Printer Expert Puts Neighbor State on Path of Economy.

Springfield, Ill., April 6.—J. Frank Higgins, printer expert for the state of Illinois, has just returned from Des Moines, Ia., where he has been acting as economy adviser to the Iowa legislature.

Some time ago Governor Dunne received a request from Iowa that Mr. Higgins be loaned to the state to assist in the making up of its printing and other contracts. Efficiency and economy measures which he has outlined for Illinois would save the state \$100,000 a year and the western state wanted to profit by his experience. Governor Dunne ordered him to make the trip.

## SIGNALS OF DISTRESS

DIXON PEOPLE SHOULD KNOW HOW TO READ AND HEED THEM.

Disordered kidneys give many signals of distress.

The secretions may be dark, contain sediment.

Passages are sometimes frequent, scanty, painful.

Backache is often present day and night.

Headaches and dizzy spells may occur.

Weakened kidneys should receive help.

Don't delay! Use a special kidney remedy.

Doan's Kidney Pills are for weak kidneys, backache and urinary disorders.

Dixon evidence proves their worth. Mrs. L. L. Shank, 1113 W. Seventh street, Dixon, says: "I had a severe pain in the small of my back and kidneys. It was hard for me to lift anything and after I stooped, I could scarcely straighten up again. I also had dizzy spells and headaches, was constantly languid and felt tired out. I procured Doan's Kidney Pills at Leake Bros. Co's Drug Store and they helped me from the start. Three boxes removed the trouble. Another of my family has also been advised by his physicians to go south immediately."

Insert here, Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Shank had. Foster-Milburn Co., Props., Buffalo, N. Y.

## INVESTIGATES OUR LOCAL MILK SUPPLY

(Continued from page 1)

mind the great importance of the purity and cleanliness of its milk supply, upon which the health of your children and the health of the community at large is largely depending, as I have been in places in this state where upon investigation it was found that 15 to 20 cases of typhoid fever were traced directly to the carelessness of one individual milk dealer. As to the results of the analysis of the samples collected in your town I can make no statements. The analysis will be ready in a couple of days and if any of the samples are off, either for being below standard in butter fat, being watered, preserved or dirty, the guilty party will hear from the commissioner.

Yours truly  
Oscar J. Lindstrom,  
State Food Inspector.

Armour & Co., are putting out a new toilet soap which they call

## "BROADWAY BATH"

It's put out for a high class soap, it has a high sounding name and is made by a reliable company but the special feature of it is that they put out with it a rubber wash cloth which they claim is worth 25c, while the soap is 15c a cake. In introducing it, they now give the soap and rubber wash cloth for the price of the soap, 15c.

Try it, it is the only way we know of testing it and seeing if it is going to be a winner. Will gladly show it to anyone.
